

**Connecticut Energy Efficiency Board**

## **2021 Public Input Sessions**

### **Development of the 2022-2024 Conservation and Load Management Plan & COVID-19 Program Impacts and Planning**

**Wednesday, March 10<sup>th</sup>, 2021 | 12:30PM – 1:15PM EST**

**THE MEETING IS WEBINAR ONLY**

The Connecticut Energy Efficiency Board (EEB) invites you to a Public Input Session for development of the 2022-2024 Conservation and Load Management (C&LM) Plan. The session will be held on Wednesday, March 10, 2021, 12:30 pm – 1:15 pm, with additional public comment meetings to be scheduled later during 2021 calendar year. The meeting is webinar only; webinar information is provided below. Please note: the EEB will hold its March monthly meeting, also by webinar, immediately following the Public Input Sessions.

Established through CGS 16-245m, the EEB is comprised of ten voting members representing business and consumer interests as well as state agencies, and five non-voting representatives of the state's electric and gas utilities. It advises and assists the utilities in the development and implementation of Connecticut's energy efficiency and demand response plans.

The EEB welcomes input as part of its collaborative process with the electric and gas utility companies, the Department of Energy and Environmental Protection (DEEP), the CT Green Bank, interested stakeholders and the general public, for developing the 2022-2024 C&LM Plan. Input will inform DEEP about the allocation of C&LM resources for energy efficiency and demand response programs and related activities for the 2022 calendar year. During this meeting, the EEB would also like to take comments on COVID-19-related impacts on current operations, program, and planning. The current three-year plan and related information may be found online at: <http://energizect.com/about/eeboard/plans>.

In order to facilitate the meeting and ensure enough time for participants, those wishing to provide verbal and/or written comments during this session are strongly encouraged to pre-register. A record of public input becomes part of the Three-Year Plan itself. Therefore, it is important that commenters provide written input, preferably in advance of the session. Presentations during the Public Input Session should be no longer than seven minutes.

Please notify the EEB Executive Secretary, Emily Rice, via email at [iking@theenergygroup.biz](mailto:iking@theenergygroup.biz) with electronic copies of your remarks, and/or a PowerPoint presentation if you plan to use one, in advance of the sessions.

Webinar Information

March 10, 2021 | 12:30 PM - 1:15PM EST

**Please join my meeting from your computer, tablet or smartphone.**

<https://global.gotomeeting.com/join/935545077>

**You can also dial in using your phone.**

United States: [+1 \(408\) 650-3123](tel:+14086503123)

**Access Code:** 935-545-077

The EEB looks forward to hearing from you during the Public Input Sessions. If you have any questions, please contact the Executive Secretary, Emily Rice.

Sincerely,

A handwritten signature in black ink, appearing to read "Neil Beup". The signature is written in a cursive style with a large initial "N".

Neil Beup  
Chair, Connecticut Energy Efficiency Board

## **About the Connecticut C&LM Plan**

The Connecticut C&LM Plan promotes efficient energy use, helps residents and businesses save on their electric and natural gas bills, advances economic development, reduces electric demand, and helps reduce air pollution. C&LM Plan programs serve residential customers, including limited-and fixed-income customers, as well as business and municipal customers. Connecticut's energy efficiency programs are funded by a charge on customers' utility bills and administered by the state's electric and gas utilities including: Eversource (previously Connecticut Light and Power and Yankee Gas), The United Illuminating Company, Connecticut Natural Gas, and Southern Connecticut Gas. Additional information on Connecticut's energy efficiency programs can be found at [EnergizeCT.com](http://www.energizect.com) or by calling 1-877-WISE-USE. C&LM Plan program activities and results may be viewed at:

<http://www.energizect.com/connecticut-energy-efficiency-board/about-energy-efficiency-board/annualreports>.

## **About Energize Connecticut**

Energize Connecticut helps you save money and use clean energy. It is an initiative of the Connecticut C&LM Plan, the Connecticut Green Bank, the State, Eversource, UI, SCG and CNG, with funding from a charge on customer energy bills.
